## PRODUCT DESCRIPTION

Bemis 16A 5P IP44 CEE Panel-Mounted Socket (BCS-1505-2413) is a CEE (IEC 60309 type) panel-mounted socket-outlet fixed to enclosures, machines or equipment. With 16A rated current and 3 phases + neutral + earth (5-pin) contact arrangement, it is rated 380V-450V / 50Hz - 60Hz for three-phase systems. IP44 protects against solid objects larger than 1 mm and against water splashing from any direction. Housing material is Polyamide 6 and contacts are MS 58 (brass). The 6h clock position shows where the earth contact sits relative to the keyway and prevents plugs and sockets of different voltage or frequency systems from mating.
