PRODUCT DESCRIPTION

Bemis 16A 5P IP20 CEE DIN Rail Socket (BR1-1505-2711) is a CEE (IEC 60309 type) wall-mounted socket-outlet for surface installation. With 16A rated current and 3 phases + neutral + earth (5-pin) contact arrangement, it is rated 380V-450V / 50Hz - 60Hz for three-phase systems. IP20 protects against finger contact but not against water, so it is intended for dry indoor areas. Housing material is Polyamide 6 and contacts are MS 58 (brass). The 6h clock position shows where the earth contact sits relative to the keyway and prevents plugs and sockets of different voltage or frequency systems from mating.
